- I have about 3 years of hands-on experience in web development and hybrid mobile application development.
- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability, and performance.
- I have been a solid contributor to the Tendercuts` customer-facing applications, say website and mobile app.
- Updated old code bases to modern development standards, improving functionality.

WORK EXPERIENCE

- Developed responsive UI components and functionalities with OOPS concepts.
- Did complete UI Revamp of TenderCuts and HappyChops app to match exactly with figma prototypes pixel by pixel.
- Tendercuts - Fixed lint errors of the entire codebase of Tendercuts Store Manager Dashboard
- Plugged in dynamic values obtained from functions into HTML.
- Integrating APIs in front-end
- Bug fixing.
- Helped my fellow colleagues with my knowledge. Also provided technical support.
